Subject: Microsoft Settlement

Dear Renata Hesse Thank you for reviewing my comments on the proposed Microsoft settlement. I have viewed the proposed Microsoft settlement and believe that largely serves consumers well. I believe that the settlement will prevent Microsoft from abusing its monopoly position but will still leave Microsoft room to continue innovating. Microsoft has brought some order to the chaos that ruled in the old days. I don't think that Microsoft should be penalized for that. Please respond so that I will know that you received my mail. Sincerely Charlie Holloway
